360ENERGY GROUP

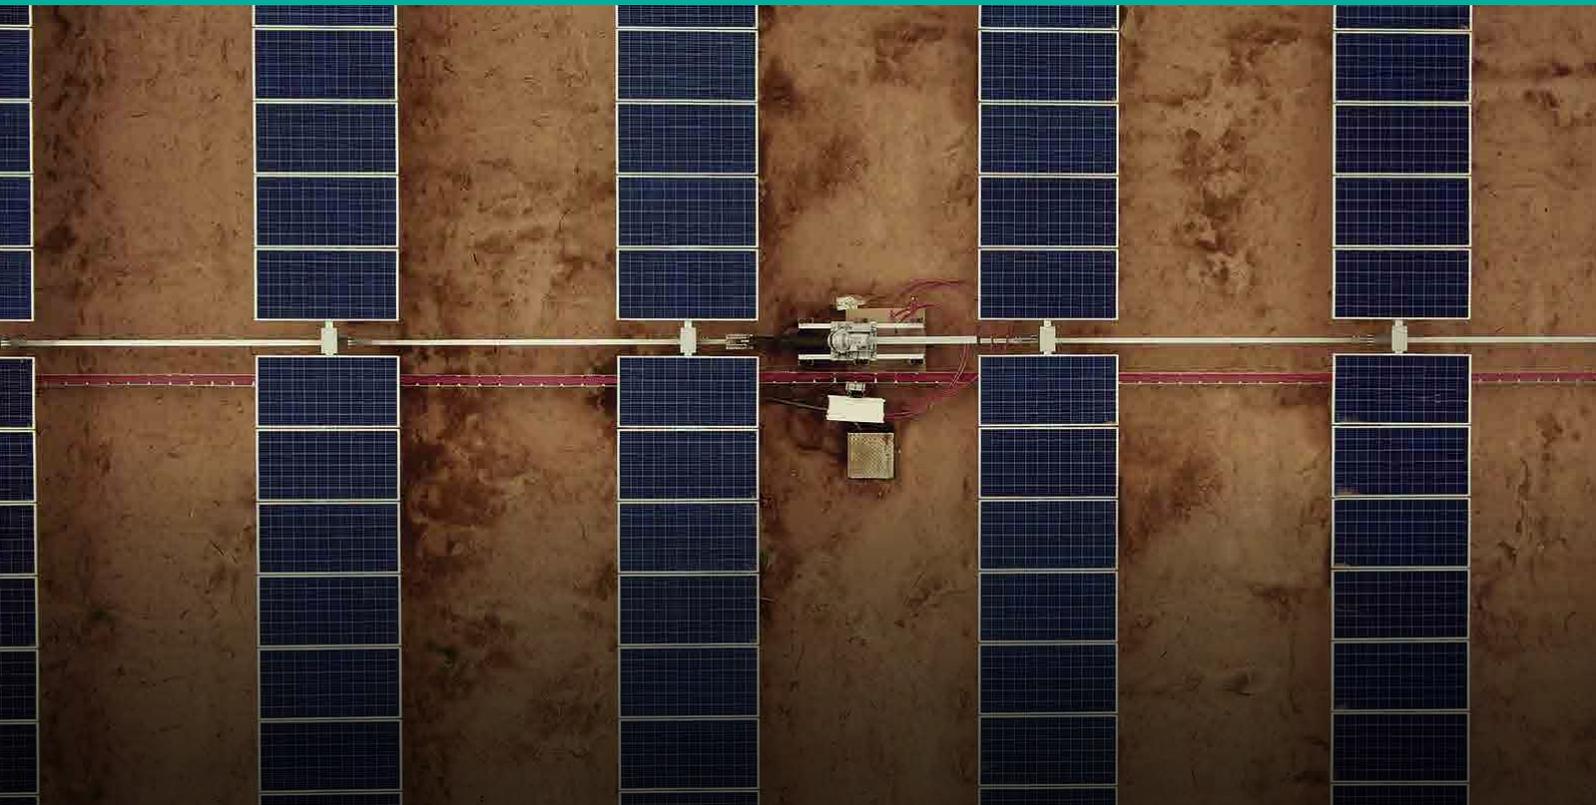

360ENERGY.SOLAR

At 360E we specialize in the development, construction, operation and commercialization of **integrated energy solutions based on solar energy, storage and green hydrogen.**

Our goal is to consolidate ourselves as an integrated solar energy company, covering the entire value chain. This includes project development, technological research, energy commercialization as well as the construction and maintenance of solar plants, with a strong commitment to diversifying the global energy matrix.

OUR SOLUTIONS

WE SELL RENEWABLE ENERGY SOLUTIONS FOR INDUSTRIES.

PPA ONSITE PROJECTS

The PV solar energy plant (Carport or Tracker) is installed at the client's facilities or nearby. The generated energy is consumed directly onsite, avoiding the use of the public power grid.

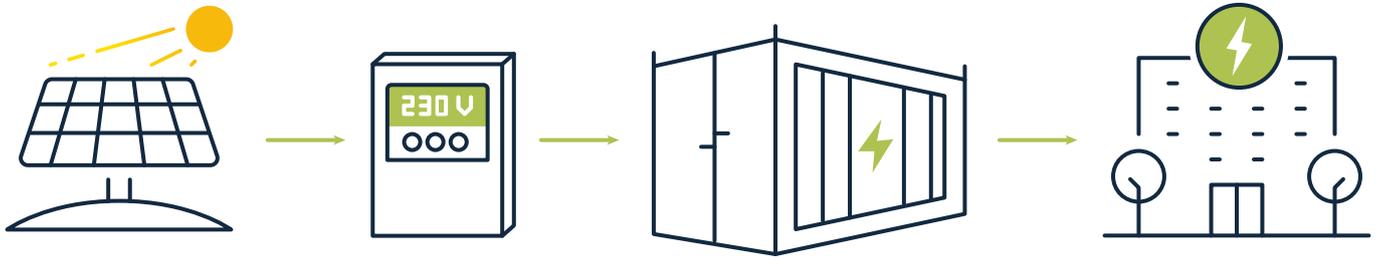

PPA OFFSITE PROJECTS

The PV solar energy plant is built at another location, with optimal solar generation conditions. The generated energy is delivered to the client through the public power grid using transmission agreements.

WHY 360ENERGY?

CERTAINTY	Predictable and competitive energy pricing.
SUSTAINABILITY	Clean, safe and environmentally friendly energy.
TRUSTWORTHINESS	We build our own projects with our own workforce.
RESPECTABILITY	We focus on compliance of global commitments.
STABILITY	Stable and predictable cashflow in USD, supported by long-term PPA contracts.

EQUIPMENT

WE SELECT STATE-OF-THE-ART
AND INNOVATIVE EQUIPMENT
TO ENSURE EFFICIENCY,
DURABILITY AND
MAXIMUM PERFORMANCE.

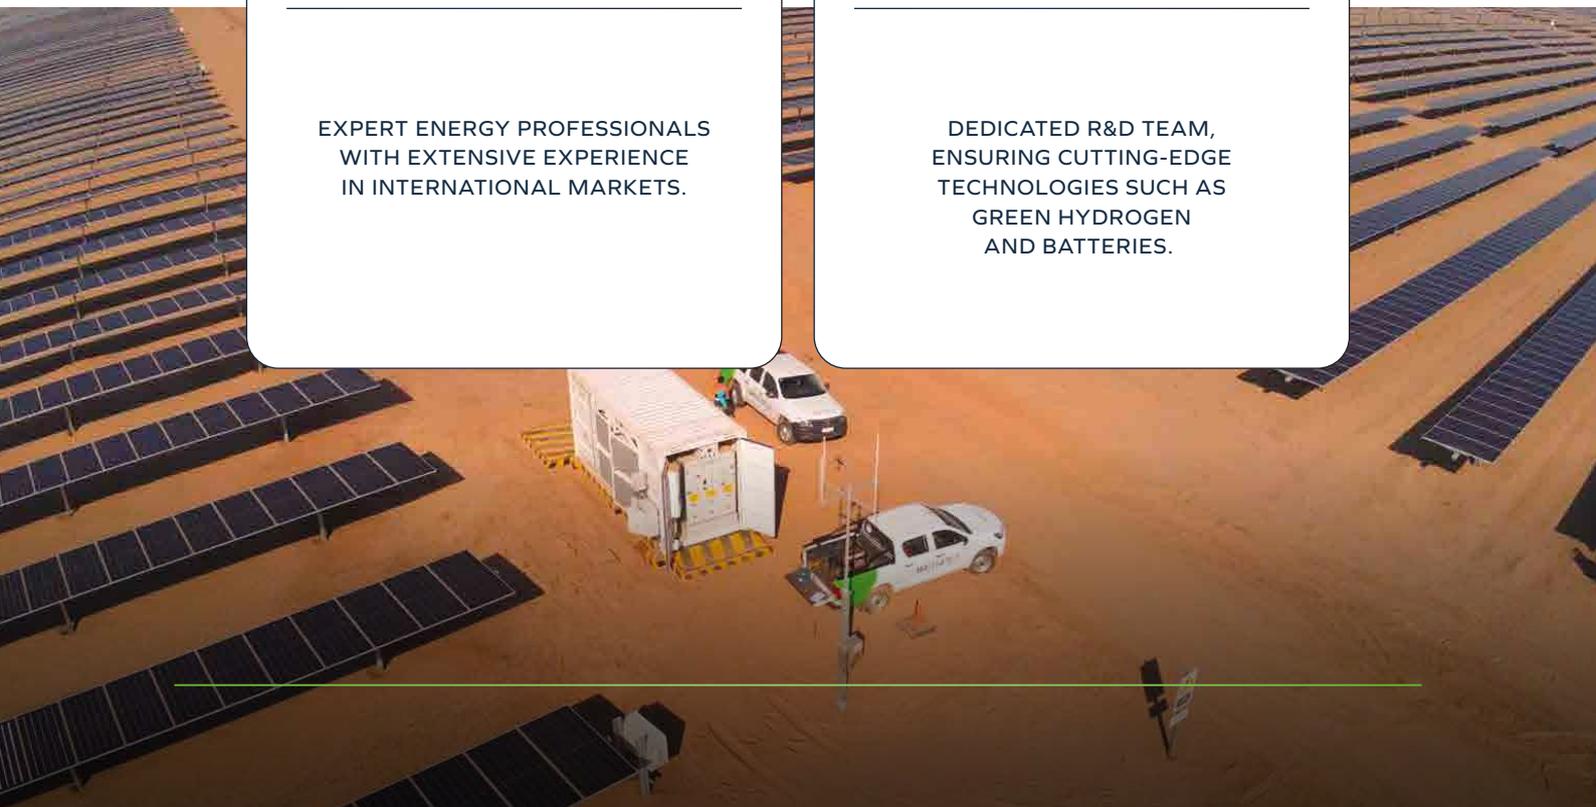

HUMAN RESOURCES

EXPERT ENERGY PROFESSIONALS
WITH EXTENSIVE EXPERIENCE
IN INTERNATIONAL MARKETS.

INNOVATION AND DEVELOPMENT

DEDICATED R&D TEAM,
ENSURING CUTTING-EDGE
TECHNOLOGIES SUCH AS
GREEN HYDROGEN
AND BATTERIES.

STRATEGIC ALLIANCE WITH

STELLANTIS' STRATEGIC SELF-SUFFICIENCY PLAN STELLANTIS DARE FORWARD 2030, WITH THE GOAL OF ACHIEVING CARBON NEUTRALITY BY 2038.

AT 360E WE PROVIDE INTEGRATED ENERGY SOLUTIONS BASED ON SOLAR ENERGY, STORAGE AND GREEN HYDROGEN.

PPAS

360 ENERGY TEAM

We are more than 200 people dedicated to the design, development and construction of PV solar plants. That is our commitment.

Our professional team has **extensive experience** and is capable of covering the different stages of the **construction value chain**:

PROJECT
ENGINEERING

HEALTH, SAFETY, QUALITY
AND ENVIRONMENT

SITE SUPERVISION AND
WORKS COORDINATION

COMMUNITY
RELATIONS

We have a stable team of field personnel for projects: site managers, foremen, and supervisors, each with a minimum of 100 MW of experience in the construction of photovoltaic solar plants.
